**Subject:** Docket No.2012-346-WS-Sandra Q. Perkins, Complainant/Petitioner v. Carolina Water Service, Incorporated Defendant/Respondent

Dear Sirs:

After a mediation conference call with CWS, and ORS, I have agreed to withdraw my complaint from the PSC. I have settled for a much lower payment and the understanding that the water be turned off immediately to my unoccupied house at 206 Timbergate Drive. I still do not believe that an unoccupied home could have used 75,850 gallons of water in one month, when the average usage has been around 25 gallons a month for the last 16 months, but it is settled and I am finally through with Carolina Water Service forever!

I will not be attending the hearing that was scheduled for November 1st, at 1:30 at the PSC. Thank you for your kind attention to this problem. I hope no one else has to go through this. It was not fun and not fair, but it is over!!

Sincerely, Sandra Q. Perkins

P.S. Please let me know if I need to notify anyone else concerning this settlement.
